## Welcome

Dear Friends,

Welcome to this course about rhinoplasty, which will be held in Centro Médico Teknon in Barcelona on the 17th, 18th, 19th, and 20th of November, 2021.

The aesthetic and functional surgery of the nose has been, is, and will always be a challenge for every plastic surgeon, otolaryngologist, and maxillofacial surgeon.

The nose is formed of many structures that must be in balance and all of them are located in approximately 5 square centimeters of our face.

The different types of skin, cartilage, bones, and turbinates that our patients have should be treated and corrected with diligence and meticulousness, and on many occasions challenges appear that are very difficult to solve.

For this reason, this course will allow us to discuss and improve our expectations.

See you in Barcelona!

## Organizing Committee

INSTITUT VILA-ROVIRA BARCELONA MEDICAL STAFF:

Dr. Ramón Vila-Rovira  
Dr. Daniel García Paricio
